
We started to produce Vision?rio media player box.

(Tuesday, 20 May 2008) - - Last Updated (Tuesday, 26 August 2008)

VisionArio Media Player is an innovative product which is suitable for commercial applications. VisionArio Media Player provided high speed media files from memory cards (CF, SD/ MMC/ Memory Stick) decoding function. With multi-output interfaces, VisionArio Media Player can connect with different kind of display like LCD TV/ monitor, Plasma display, CRT TV/ monitor. These two features enable user to use VisionArio Media Player for continuously looping media files for promotion.
